

7 WARNING SIGNS OF A PHISHING SCAM

1 ODD EMAIL ADDRESS

Slight changes in domains
like @amaz0n.com

2 Generic Greetings

"Dear User" instead of
Your Name.

3 Urgent Tone

Phrases like
"Act Now!" or
"Account Locked!"

4 Unexpected Links/Attachments

Exercise caution.

Could contain malware.

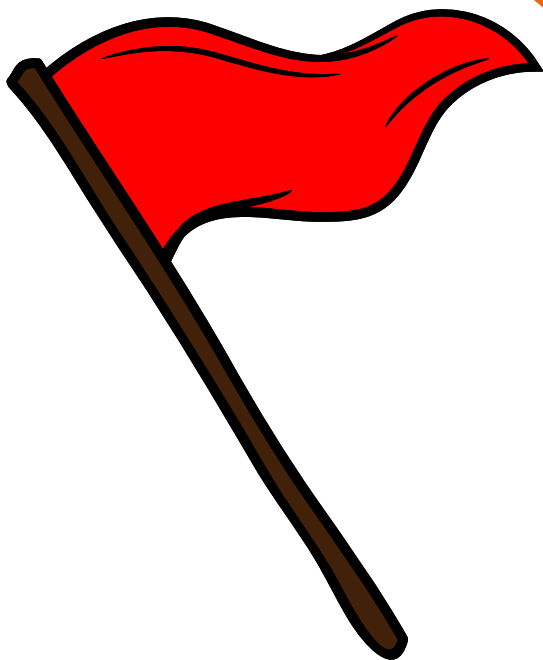

5 Requests for Personal Info

Legit companies never ask for sensitive data via email or message.

6 Grammar Errors

Poor spelling and grammar are **Red Flags.**

7 Mismatched URLs
